

VRP2013: European Spring School on Vehicle Routing - Angers (France) May 20-24, 2013
Program

Time	Monday (05/20)	Tuesday (05/21)	Wednesday (05/22)	Thursday (05/23)	Friday (05/24)
09h00-10h30		Module 1	Module 2	Module 3	Module 4
10h30-11h00		Coffee Break / Poster Session			
11h00-12h30		Module 1	Module 2	Module 3	Module 4
12h30-14h00	Registration	Lunch Break			
14h00-15h30	Workshop 1	Module 1	Module 2	Module 3	Module 4
15h30-16h00	Coffee Break	Visit to Château d'Angers	Coffee Break / Poster Session		
16h00-17h30	Workshop 1		Module 2	Workshop 2	Module 4
17h30-20h00					
20h00-23h00		Dinner			

Modules	
Module 1	Vehicle routing applications Daniele Vigo (Università di Bologna, Italy)
Module 2	Metaheuristics for vehicle routing Christian Prins (Université de Technologie de Troyes, France)
Module 3	Column generation-based approaches for vehicle routing Dominique Feillet (École des Mines de Saint-Etienne, France)
Module 4	Solution approaches for stochastic vehicle routing problems Michel Gendreau (École Polytechnique de Montréal, Canada)

Workshops	
Workshop 1	Implementation aspects in vehicle routing Victor Pillac (NICTA, Australia)
Workshop 2	Column generation-based approaches for vehicle routing Dominique Feillet (École des Mines de Saint-Etienne, France)
